1. Classroom addition under design
2. Kindergarten addition under design

* Funding for the design of a new additional Crofton area high school is scheduled for FY17

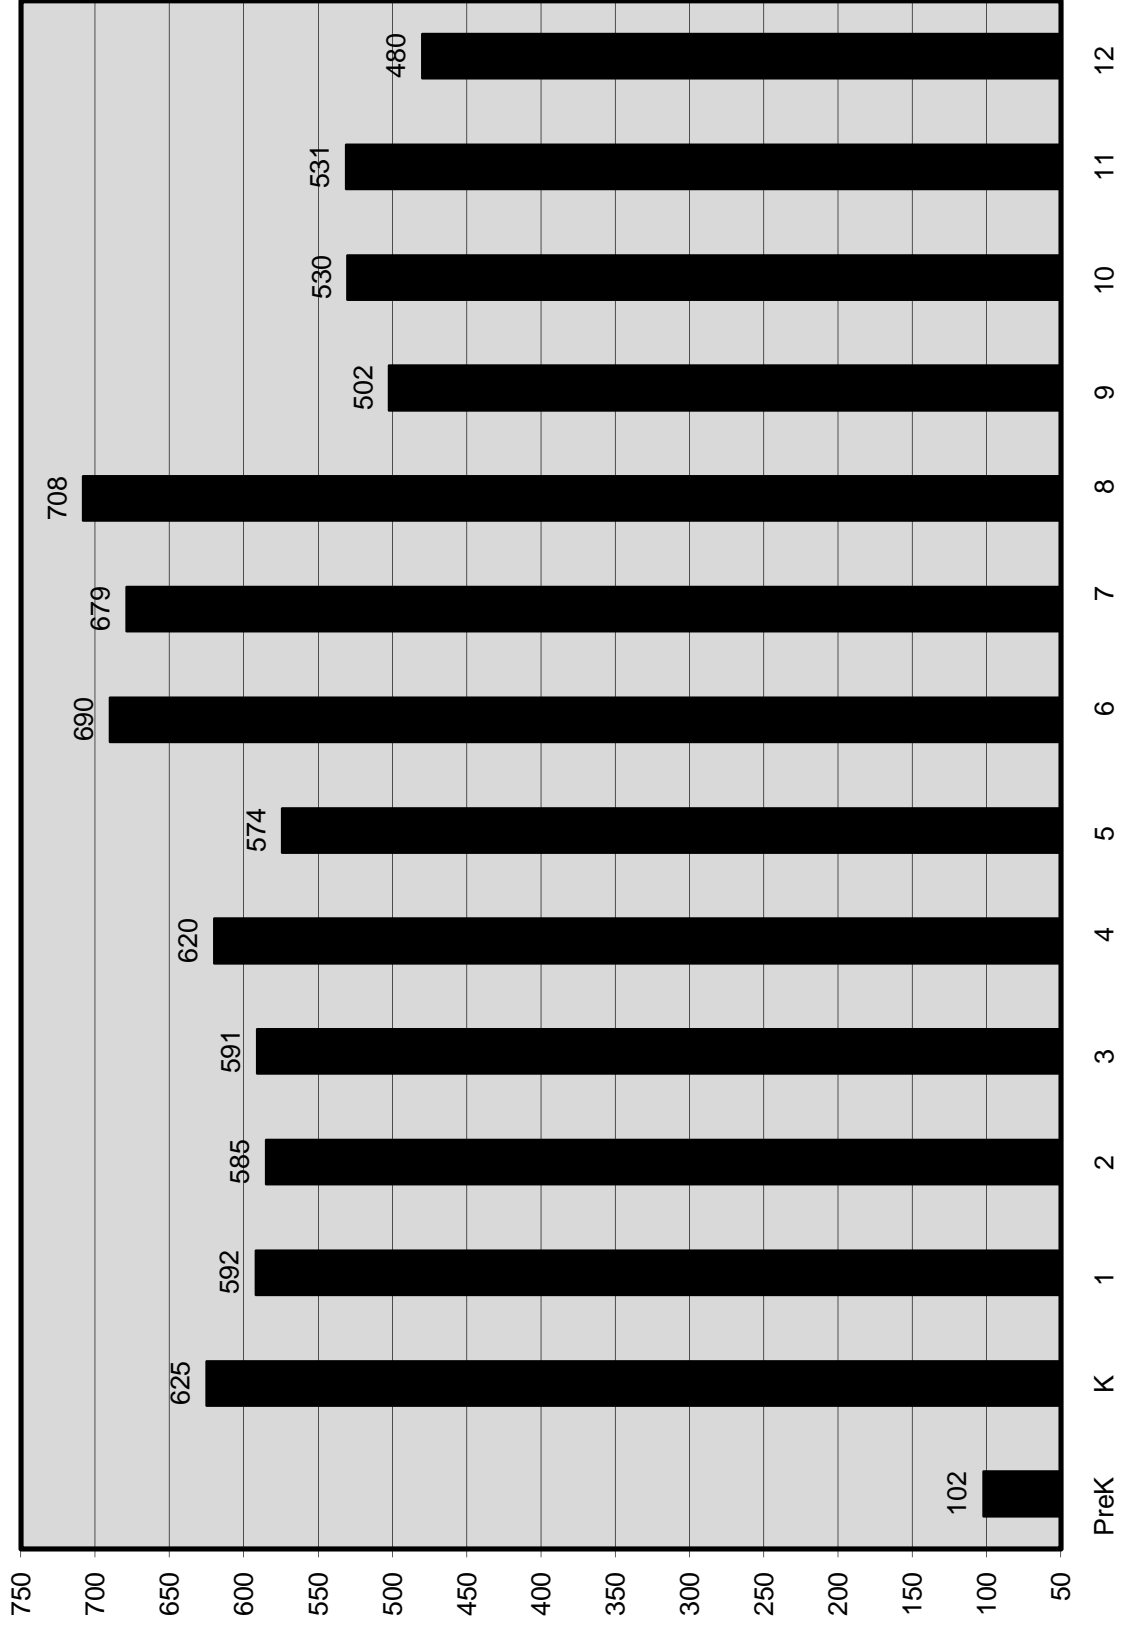

** Students from the Crofton Elementary and Nantucket Elementary attendance areas attend Crofton Middle. Crofton Middle is reflected in the South River Feeder System.

ARUNDEL FEEDER SYSTEM ENROLLMENT

2015 Actual, 2016-2025 Projected

ARUNDEL FEEDER SYSTEM ACTUAL SEPTEMBER 2015 ENROLLMENT

Arundel High School

Geographic/Demographic Component:¹ Arundel High School’s attendance area is located in census tracts 7022.01, 7022.02, 702.03, 7023, 7403.01, 7407, 7408, and 7409.

Zoning:² Areas located west of Route 175 and south of Waugh Chapel Road are zoned RLD and R-1. To the north R-5 zoning predominates intermingled with pockets of R-15 and R-22, especially along Route 175. The attendance zone reaches south to Crofton where most land is zoned R-5 accompanied by zoning ranging from R-A to R-22. Crofton supports light industrial uses lying west of Route 3 near a rapidly-growing commercial district.

Sewer Service:³ Sewer service exists in most of Crofton, Odenton Piney Orchard. Areas east of Towson Branch and south of Waugh Chapel are in the “planned service” area. Rural areas around Woodwardville, plus developing areas along Route 175 east of Burns Crossing Road, are in the “no planned service” area.

Water Service:³ Water service exists in Crofton, Odenton and Piney Orchard. An area along Route 175, south of Route 32, is in the “planned service” area. There is no planned water service in the area lying west of Route 3 and south of Waugh Chapel Road.

Development: Anne Arundel Planning and Zoning has identified this as a major growth area and several large-scale residential projects are planned or under construction. Odenton Town Center and the area surrounding the Waugh Chapel commercial district are especially active, with the largest project being Two Rivers, located along Conway Road to the south.

Enrollment: Enrollment is projected to increase significantly over the next decade. Rapid residential growth explains this both with regard to new students moving in to these new homes along with the arrival of current elementary and middle school students.

Planning:⁶ The 1997 Anne Arundel County General Development Plan (GDP) for this area was updated via the implementation of the Odenton Small Area Plan which went into effect on June 21, 2004. A complete revised GDP is projected for completion in 2009. The 2009 GDP was approved by the County Council on October 19, 2009.

Statistical Data:¹

Population of attendance area	62,095
Number in public schools (PreK-12)	6,324
Percent in public schools	10%
Percent non-white	20%
Average home value	\$332,000
Median income.....	\$95,680

 Acreage of site: 62.21 acres (Shares site with
 Arundel Middle)

Arundel Middle School

Geographic/Demographic Component:¹ Arundel Middle School's attendance area is located in census tracts 7403.01, 7407, 7408, and 7409.

Zoning:² Areas located west of Route 175 and south of Waugh Chapel Road are zoned RLD and R2. R-5 residential zoning predominates to the north. Enclaves of R-15 and R-22 zoning exist south of Route 175 near the Route 170 intersection.

Sewer Service:³ Sewer service exists in Crofton, Odenton and Piney Orchard. Developing areas along Route 175 east of Burns Crossing Road are in the "no planned service" area.

Water Service:³ Water service exists in the Crofton Community area. There is no planned water service in the area which lies west of Route 3 and south of Waugh Chapel Road.

Development: This portion of Anne Arundel County is attracting developers' attention and in fact is being singled out by County Planning and Zoning as the site of extensive housing construction. Odenton Town Center is noteworthy of the multi-family development occurring in what is, for all practical purposes, downtown Odenton. The availability of developable land and a market for homes at virtually every price point will attract continued developer interest.

Enrollment: Enrollment is projected to increase significantly over the next decade. Rapid residential growth explains this both with regard to new students moving in to these new homes along with the arrival of current elementary school students.

Planning:⁶ The 1997 Anne Arundel County General Development Plan (GDP) for this area was updated via the implementation of the Odenton Small Area Plan which went into effect on June 21, 2004. A complete revised GDP is projected for completion in 2009. The 2009 GDP was approved by the County Council on October 19, 2009.

Crofton Elementary School

Geographic/Demographic Component:¹ Crofton Elementary School's attendance area is located in census tracts 7022.01, 7022.02, 7022.03, and 7407.

Zoning:² Zoning in the Crofton Elementary attendance area features R-5 in and around Crofton proper with scattered tracts of high density of R-15 and R-22. Lower densities of R-1 and R-A exist to the north and west.

Sewer Service:³ Sewer service exists in the entire area east of Route 3. Areas to the west near Woodwardville are in the "no planned service" area.

Water Service:³ Water service exists in the entire area.

Development: This area has experienced rapid residential development. Two Rivers, a large project originally programmed for age-restricted development, has been largely converted to non-age-restricted development and is underway. A total of 1,260 non-age-restricted housing units are planned. Several other projects have been approved for the Route 3 corridor.

Enrollment: Enrollment is projected to increase significantly from rapid residential growth.

Planning:⁶ The 1997 Anne Arundel County General Development Plan (GDP) for this area was updated via the implementation of the Odenton Small Area Plan which went into effect on June 21, 2004. The 2009 GDP was approved by the County Council on October 19, 2009.

Evaluation of physical condition - Excellent

Size of existing building: 86,640 sq.ft.

Acreage of site: 16.30 acres

Four Seasons Elementary School

Geographic/Demographic Component:¹ Four Seasons' attendance area is located in census tracts 7022.02, 7407, and 7408.

Zoning:² R-5 zoning lies north of Waugh Chapel Road. Areas south of Waugh Chapel Road are zoned RLD with R-1 zoning located near Route 3.

Sewer Service:³ Sewer service exists in the community of Four Seasons Estates and the area north and south of Waugh Chapel Road. The area east of Four Seasons Estates is in the "planned service" area.

Water Service:³ Water service exists in the entire area.

Development: Development had slowed in this area but two projects are underway along Waugh Chapel Road. This is driven by the availability of developable land in the area, a strong housing market in West County, and County Planning and Zoning's emphasis on this part of the county for residential construction.

Enrollment: Enrollment is projected to remain stable over the next decade.

Planning:⁶ The 1997 Anne Arundel County General Development Plan (GDP) for this area was updated via the implementation of the Odenton Small Area Plan which went into effect on June 21, 2004. The 2009 GDP was approved by the County Council on October 19, 2009.

Nantucket Elementary School

Geographic/Demographic Component:¹ Nantucket Elementary School's attendance area is located in census tracts 7022.02, 7407, and 7408.

Zoning:² Zoning is mostly R-5 with some R-1 zoning extending along Route 3.

Sewer Service:³ Sewer service exists in the community.

Water Service:³ Water service exists in the entire area.

Development: A large subdivision – Wilson's Grove - is under construction on a large tract lying east of the school, but otherwise little development is anticipated within this compact and largely built-out area.

Enrollment: Enrollment is projected to remain stable over the next decade.

Planning:⁶ The 1997 Anne Arundel County General Development Plan (GDP) for this area was updated via the implementation of the Odenton Small Area Plan which went into effect on June 21, 2004. The 2009 GDP was approved by the County Council on October 19, 2009.

Size of existing building: 86,273 sq.ft.
 Acreage of site: 20.00 acres
 Current Relocatables: 5

Odenton Elementary School

Geographic/Demographic Component:¹ Odenton Elementary School's attendance area is located in census tracts 7403.01, 7403.02, 7408, and 7409.

Zoning:² Odenton has been the focus of large-scale development. Several already have been completed and several others remain to be built. R-5 zoning covers the large tracts south of Route 175. North of Route 175 areas located along the Amtrak right-of-way are zoned R-15 and R-22. Commercial zoning along Route 175 near Route 170 permit retail and commercial construction.

Sewer Service:³ Sewer service exists for most of the residential and commercial areas. The area along Route 175 east of Burns Crossing Road is in the "no planned service" area.

Water Service:³ Water Service exists for most of the area. An area along Route 175 - south of Route 32 - is in the "future service" area. The areas west of Route 3 and south of Waugh Chapel Road are in the "no planned service" area.

Development: Large-scale residential development has arrived in Odenton spurred by its location near Baltimore, Washington, Annapolis, Ft. Meade and Columbia. The Odenton Town Center is actively adding multi-family housing; three projects have been completed and over 2,000 housing units are anticipated at build-out. Commercial properties are being changed to residential zoning and are thus exempt from adequate public facilities laws.

Enrollment: Enrollment is projected to increase significantly as new residential development, primarily in Odenton Town Center, proceeds.

Planning:⁶ The 1997 Anne Arundel County General Development Plan (GDP) for this area was updated via the implementation of the Odenton Small Area Plan which went into effect on June 21, 2004. The 2009 GDP was approved by the County Council on October 19, 2009.

Piney Orchard Elementary School

Geographic/Demographic Component:¹ Piney Orchard Elementary School's enrollment area is located in census tracts 7407, 7408 and 7409.

Zoning:² Zoning south of Waugh Chapel Road is R-5 and R-A. Densities in the Piney Orchard PUD range from R-5 to R-15 reflecting the mix of apartments, townhomes and single-family homes.

Sewer Service:³ Sewer service exists in Piney Orchard as the community of Piney Orchard has its own wastewater treatment facility. Rural areas to the south toward Woodwardville are not planned to receive service.

Water Service:³ The community of Piney Orchard has water service. Rural land southwest of Piney Orchard has "no planned water" service.

Development: The Piney Orchard Planned Unit Development is complete. Some development is programmed to the north near the MARC station but the major wave of residential construction here has been completed.

Enrollment: Enrollment is projected to remain stable over the next decade.

Planning:⁶ The 1997 Anne Arundel County General Development Plan (GDP) for this area was updated via the implementation of the Odenton Small Area Plan which went into effect on June 21, 2004. The 2009 GDP was approved by the County Council on October 19, 2009.

Waugh Chapel Elementary School

Geographic/Demographic Component:¹ Waugh Chapel Elementary School's attendance area is located in census tracts 7407, 7408, and 7409.

Zoning:² Areas northeast of Waugh Chapel Road are zoned R-5; areas located across this important thoroughfare are zoned R-A. Portions of the school's feeder zone are zoned for deferred development.

Sewer Service:³ Areas west of the school receive sewer service, while areas to the east do not and lie within the "no planned service" area.

Water Service:³ The communities of Chapel Gate and Waugh Chapel have water service. The Naval Academy Dairy Farm and the area southwest of Waugh Chapel have no planned water service.

Development: Western Anne Arundel County has attracted the attention of developers due to the area's convenient location, affordable land prices, and County policy encouraging development there. Several projects are under construction and more are planned but these are small in scale (fewer than 15 homes each).

Enrollment: Enrollment is projected to increase moderately by 2020 and remain stable thereafter.

Planning:⁶ The 1997 Anne Arundel County General Development Plan (GDP) for this area was updated via the implementation of the Odenton Small Area Plan which went into effect on June 21, 2004. The 2009 GDP was approved by the County Council on October 19, 2009.

**FACILITIES INVENTORY AND
ENROLLMENT PROJECTIONS BY GRADE**

**WAUGH CHAPEL ELEMENTARY (Grade PreK-5)
840 Sunflower Drive
Odenton**

State-Rated Capacity: 565
